J. Bryan said that the tariff, the tariff,

paramount issues in the campaign to de-

If there are still any sufferers from
Rheumatism in this county or wherever
this paper reaches, that have not yet
tried the wonderful Rheumatic Remedy

our expense. We firmly believe that
there is not a case of Rheumatism in the
world that will not yield to the won-
derful effects of URIC-O, and we want
to prove it to every doubter be-
fore and after. The best way to do
this is to give a large trial bottle of
this remedy outright to every sufferer
and let him test and try it to his own
satisfaction. If you or any of your
family suffer from Rheumatism, no mat-
ter what form, just cut this notice out
of the paper and send it together with
your name and address, also the name
of your druggist, to the Smith Drug
Co., 109 South Bldg., Syracuse, N. Y.,
and they will send you by return mail
a liberal trial package free of all ex-
pense. There is no reservation to this
offer. You take the remedy home and

you will recommend it to all your
friends who have rheumatism. We know
from experience that personal recom-
mendation from one person to another
is the most valuable advertising, and
that is the way we intend to acquaint
the world with URIC-O. Don't put off
writing because this offer will soon ex-
pire, and then it will be too late. Do

HAD THOUSANDS IN
JEWELS WHEN ARRESTED.

Two Young Men in Rich Fur Overcoats
Caught With Articles Stolen June
Before in New Rochelle.

New Rochelle, N. Y., Jan. 7.—In the
arrest of two fashionably dressed young
men who wore silk hats and kid gloves
and carried gold-headed canes and who
posed as clubmen, the police of New
Rochelle believe they have captured the
burglars who have been reaping a rich
harvest in New Rochelle and Mt. Vernon.

The prisoners, who gave their names
as James Taylor and William Harland
of New York, although they carried out-
cases filled with \$25,000 worth of
jewelry and silverware, protested, saying
that they were members of a New
Rochelle yacht club.

The bolt failed to work with the
roundsmen. In their rich, fur-lined
overcoats the men carried a large amount
of additional plunder.

It is believed the prisoners are the
two men who on Friday evening last en-
tered the house of Dr. George A. Lyon
at 111 West 12th street, New Rochelle,
when disturbed in their operations by
Mrs. Lyon thrust a revolver in her face,
and then choked her into insensibility.
Shortly before the arrest the home of
Mrs. Atwood at 11 Woodland avenue,
was robbed of several thousand dollars'
worth of jewelry. When captured the
men had evidently just come in from the
Atwood residence, as much of the plunder
was identified by Mrs. Atwood.

A dozen robberies have taken place in
fashionable sections of Mt. Vernon and
New Rochelle during the past few
weeks.

BODY OF MISSING
MAINE FARMER FOUND.

Searchers, Who Were Aided By Clair-
voyants, Discovered It in a Pond
Within a Mile of His Home.

East Raymond, Jan. 7.—The body of
Thomas J. Brown, who has been missing
since Friday and for whom the farmers
of five towns in Cumberland county
have been searching, using clairvoyants
as aids in prosecuting the search, was
found in Panther pond within a mile
of his home.

Brown disappeared Friday morning at
about 5 o'clock. He left the house telling
his wife he had heard a noise at the
barn and was going to investigate. He
did not return. About an hour after he
left Mrs. Brown went to the barn to
look for him. She found his unlighted
lantern inside the door. She gave the
alarm and soon the neighbors joined her
in the search.

Indications of
Stomach Stomachs
sometimes appear when least
expected. Acute indigestion,
flatulence, nervousness, sick head-
ache, biliousness, sour eructa-

should not pass unheeded. Any
of these conditions indicate
some disturbing element which
needs to be calmed and removed.

CULL BEANS.

Their Value as a Feed For Young Pigs
and For Sheep.

Beans are a very important agricul-
tural crop in Michigan, the total crop
ranging between 1,500,000 and 5,000-
000 bushels per year. It has been es-
timated that from 5 to 10 per cent of the
total crop consists of culls or damaged
beans, the proportion being influenced
by the peculiarities of the season and
weather conditions at the time of har-
vest. Of these cull beans about one-
half are probably used for feeding pur-
poses.

Fed to Cows and Swine.

R. S. Shaw and A. C. Anderson of
the Michigan experiment station, who
have recently studied the value of cull
beans as a feed for young pigs and for
fattening pigs, state:

Mixed with other grains, cull beans
may be fed to sheep, and large quanti-
ties are used in this state for this pur-
pose each year. It is reported that
they are used as a food for dairy cows.
They are also fed to swine.

It is not designed to advocate the ex-
tensive use of beans as a swine food,
especially in the fattening or finishing
period. Pork from hogs which have
been fattened quite largely on beans is
generally soft and lacking in quality.
If a considerable portion of the pork
produced in the state were of this kind
it would lower prices and work serious
harm to the swine industry. It is gen-
erally conceded that bean fed hogs
store up a fat having a lower melting
point, and consequently a softer fat,
than hogs fed upon many other feeds
and that a considerable portion of the
element called quality in pork is de-
pendent upon the melting point or
character of the fat stored up.

In the case of mutton finished upon
beans no such criticism has been made,
probably because there is relatively
less fat in the carcass of the sheep and
its character is not so essential to the
quality of the meat as in the case of the
pig.
